Amal Jyothi ties up with Volvo-Eicher for job-oriented skill development programme

In a first-of-its kind venture for an engineering college in Kerala, Amal Jyothi has signed up with the globally-renowned Volvo-Eicher Commercial Vehicles Ltd (VECVL- a joint venture between the Swedish auto giant Volvo group and Eicher Motors) for a job-oriented skill development centre. Accordingly, the Amal Jyothi-Eicher Center for Automobile Technology, sponsored by VECVL, will shortly be established on the Amal Jyothi campus.

This will be the first heavy-duty automobile training centre in Kerala run by an engineering college in association with a globally-reputed automobile manufacturer.

The Centre will familiarize trainees in the most scientific ways of repair, maintenance and overhauling of commercial vehicles. VECVL will train the trainers and conduct regular follow-up programmes for the faculty. It will also provide study materials and training equipment for the course. The course will blend theory and practical sessions, and VECVL will provide internship at their plant and dealerships.

'Over a Cup of Tea': It is important that we blend our academic programmes with activities that build character, improve knowledge and help connect with the world outside. 'Over a Cup of Tea' brings distinguished experts from various fields for an interaction with our students over a cup of tea. This exercise equips students with an understanding of various sectors. The latest session was an interaction with Dr. James Jacob, Director of Research, Rubber Board of India. With an illustrious career at the Rubber Board, he has wide international experience and discussed issues that go beyond rubber research on 6th Dec.
