

About “Technotica”

“Technotica” is a state level software project contest for BCA and B.Sc. Computer Science and IT final year students to bring their innovative ideas to reality. The main aim is to equip the students with entrepreneurial skill sets which can lead to a socially relevant sustainable software product.

The idea may be carried out as a part of their final year project. Based on the review of experts from the industry and academia, projects will be selected. The selected projects will be provided with one week free training in the required platform in Startups Valley. The participants can avail this facility for completion of their project for a period of 3 months.

Schedule

Invitation of Ideas : 10 December 2019 - 15 January 2020

First round presentation of selected ideas : 20 January 2020

Announcement of the result of first round : 22 January 2020
